

Covid-19 Information

Level 5 - Service Update 25/01/2021:

EmployAbility Roscommon provides support for people with disabilities and health issues to access and retain employment in the open labour market. This includes needs assessment, career guidance, job searching, on-the-job training and mentoring. These are all considered essential services and will continue to be provided to our DEASP registered clients during Level 5 restrictions in line with HSE guidance.

For the safety of all who avail of our services and our employees, our work will continue remotely. We will continue to follow all public health guidelines. New clients will be waitlisted until the referral system resumes and until face-to-face meetings are permitted.

If you have a specific query or if you wish to join our client waitlist, please contact this office on 090 6628608 or 087 6538176 or by email to: info@rosemp.ie

If you are an employer and wish to enquire about employing a client of EmployAbility or to find out about grants and subsidies which you may be able to avail of, please contact the Coordinator on 087 6538176 for more information.
